# Keeping you Mobile

## Vertical Platform Lifts

**Safety conscious, reliable and cost-effective vertical platform lifts are a quick and easy access solution.**

With no need for a pit or motor-room, both costs and disruption of this adaptable range are kept to a minimum.

All the quality and convenience of a full lift system – without the hassle.

We'll help you identify the capacity, door types, entrance positions, installation mountings and finishes you need to create your perfect lift.

- Suitable for any user
- Bespoke designs in glass or stainless steel
- Approved to DDA & Part M Regulations
- Minimal installation/disruption
- No pit or motor room required
- Adjacent entry/exit with automatic doors
- Battery back-up

## Inclined Platform Lifts

**Designed to fit both straight or curved staircases in all kinds of places from an office to a home, this lift can carry all types of wheelchairs easily & gently.**

With its capability of folding away when not in use, this lift enables continued trouble-free use of your staircase.

- Carries all types of wheelchair
- Automatic folding barrier arms and platform
- Suitable for internal or external locations
- Emergency battery back-up
- Modern designs
- Soft start/stop mechanism
- Wall mounted or self-standing rails
- Approved to DDA & Part M Regulations
- All types of finishes available

## Stairlifts

**We are authorised agents for all leading brands of stairlifts, which means you get to choose exactly what's right for you.**

Imagine how it would transform your life, if you could move around your home freely – without the difficulty of getting up and down stairs.

Whether your stairs are straight or curved, our user-friendly and elegant stairlifts are designed to cope with every twist and turn and deliver you safely from one level to the next – all at the push of a button.

- Fast delivery and installation
- All leading makes and models
- Space-saving, compact designs
- Suitable for all types of staircase
- Straight or curved
- Emergency battery back-up
- Can be used indoors or outdoors
- A range of colours to choose from

A few manufacturers' products we work with include Stannah, Thyssen, Oto, Brooks, Acorn, Minivator, Handicare, Bison, Meditek and Bruno.

## Ceiling Hoists

**Ceiling hoist systems are an ideal solution for lifting and moving people from one place to another in all kinds of care environments.**

Having the ability to store the lifting equipment out of the way (on the ceiling or wall), you will keep your floor space clear, making it much easier, quicker and safer to get around both independently or assisted.

Whether you need the ability to move from a chair to a bed or from a bedroom to a bathroom, our ceiling track hoist systems can transport persons to places that once seemed impossible to do! Ceiling hoists are always in place, charged and ready to use as needed.

Our ceiling hoists provide a unique and innovative method of transfer.

- Reliable with rapid, effective recharging system
- Comfortable smooth start and very quiet
- Affordable low operating costs and maintenance
- Responsive always-on availability and dual-speed
- Sophisticated built-in safety system
- Easy to use, comfortable and intuitive control units
- Curved & Straight track configurations available

## Through Floor Lifts

**Our domestic through-floor lifts go from any room downstairs to the room above in one easy journey.**

When you are not using the lift you can send it away from the room you are in, leaving you the full space of that room.

Designed to take a wheelchair or just a single person this lift offers comfortable and easy use.

- Range of sizes
- Minimum intrusion on living space
- Unique fire response system
- Telephone
- Seat
- In-car lights and controls
- Grab handles
- Traction or hydraulic lifting system

**“ I have been a customer for 15 years. I have always received excellent service and have found them to be very reliable and always understanding of my requirements. ”**

*Mrs Parr, Gillingham*
